

## Track Team Wins Honors at Brady

**Two-Mile Relay Won by Hamlin Trackmen; Attend Tourament in San Angelo Saturday**

Hamlin track team won a first place, and several other honors in the track and field meet held in Brady last week, Coach Jesse Burditt said Thursday.

The two-mile relay was won by the Hamlin team, composed of Tommy Latham, Seth Adams, W. T. Stapler and John Holland.

Time for the relay was 9.12. A large foot high trophy was given the local runners.

Hamlin will compete in the meet again next year to defend the trophy, and if the local school wins it three years consecutively, it will become the permanent possession of the school.

Stapler was awarded fourth place in the 880-yard race.

The Hamlin trackmen made the best time they have made during the entire year in every event entered, Burditt said.

Competition in the meet was keen, Burditt reported, and 30 schools had entered the meet.

The Hamlin track teams will go to San Angelo Saturday of this week for a meet there. More men will make the trip to Angelo than went to Brady. A bus will take the boys to the tourney.

Burditt is putting his charges through rigorous training to condition them for the district meet to be held in Merkel April 9.

## Abilene Whips Pipers Second Time Tuesday

The Abilene Eagles repeated their victory over the Hamlin Piped Piper baseball team in a return game between the nines played on the local field Tuesday afternoon. The score was 6 to 1 in favor of the visitors.

In the first encounter between the teams, played in Abilene last week, the Taylor Countians eked out a 2-0 victory over the Pipers in a hard-fought contest.

The Pipers had J. B. May on the mound for the entire game, while Abilene used Jones, Price and O'Bar in the hurling position.

May held the visitors to six hits, while the Pipers gathered five hits from the Abilene trio.

Only three of Abilene's tallies were earned runs, the other three being attributed to errors on the part of the Hamlin team.

Hamlin has a tentative game with Anson on the home field next Monday afternoon. The game, if played, will begin at 4 o'clock.

The district official schedule will open for Hamlin Friday, April 1, when the Pipers will go to Throckmorton for the first conference contest.

One who believes stock market prices will fall is a "bear."

## Hamlin 'Eligible' for New P. O. Building

Hamlin was one of 222 towns in Texas put on the "eligible" list for a post office building, by the Post Office Department this week, it was announced Thursday.

If constructed, the building here would come from an appropriation of \$40,000,000 set aside for such structures. Other towns in the 17th congressional district listed as "eligible" were Albany, Baird, DeLeon, Dublin, Gorman, Hico, Rotan, Merkel, Rising Star and Roscoe.

## Pat Marlow Will Head Rotarans In Coming Year

Pat Marlow was elected president of the Hamlin Rotary Club at the Wednesday noon meeting of the group. He will succeed Bill Terry, who has served the organization during the past year.

C. G. Green, secretary of the Rotary club, was reelected to that position in the balloting. Other officers named for the club were: Clyde Huff, M. T. York and Dean Witt, directors for the year.

Rev. B. F. Neely, who is conducting revival services in the Hamlin Church of the Nazarene, spoke briefly to the club. Rev. Neely is a former resident of Hamlin, having been president of the old Nazarene College here. He now lives in Shawnee, Oklahoma.

Two skits from the senior play "You Can't Take It With You," were given by members of the cast to advertise the entertainment.

Several out of town visitors were introduced as guests at the meeting.

## Alexander Is Named Manager of Safeway

Clyde Alexander of Abilene was appointed manager of the Hamlin Safeway store last week, and took charge of the business Monday. He replaces Riley Foster, who has been transferred to Abilene.

Alexander and Mrs. Alexander will move their family here as soon as housing can be obtained. They have two sons. Mrs. Alexander is a teacher in Aspermont schools.

The new manager has been with the Safeway organization for more than 10 years.

Bob Fillman, of Brownwood was named manager of the meat department of the local store at the same time. Fillman has been with the grocery firm for four years. He has a wife and two daughters, and will move his family here shortly.

## Sixty Street Lights Planned for Hamlin

An addition of 60 street lights to Hamlin is planned in the installation ordered recently by the City Council, it was announced this week.

The sixty lights will be placed in the residential district, with locations slated for the Rotan highway street, Stamford highway street, and on Central Avenue to within two blocks of the Katy tracks.

Other lights will be scattered through the residential area, B. M. Brundage, manager of the West Texas Utilities Company, said.

Of the 60 lights to be installed, 31 will be of the pendant type, and 29 will be the bracket type. The new installation will more than double the number of street lights now in use in Hamlin.

## Nunn Resigns as Local Pastor; to Attend School

Rev. W. E. Nunn, who for more than two years has been pastor of the Cavalry Baptist Church in Hamlin, submitted his resignation to the church last Sunday, and with his family will leave Hamlin for Cushing, Texas, this week.

Nunn said he resigned here reluctantly, and only because he wanted to complete his education. He will enroll in the Baptist Sem-

REV. W. E. NUNN

inary being established at Jacksonville, he said this week.

During the pastorate of Rev. Nunn, the Hamlin church has grown in both membership and in building size. A total of 140 additions have been made to the membership during Nunn's pastorate.

The building, which consisted of one large room when Nunn became pastor, now consists of an auditorium and an educational building with 10 rooms for classes.

In addition pews were installed in the auditorium last winter, a garage was erected at the parsonage and other improvements were made.

Rev. Nunn has accepted the astorate of the Cushing Baptist Church to enable him to attend school at nearby Jacksonville.

He will return here for a spring revival meeting, which is slated for one week, from April 3 to April 10 in the Cavalry church.

Leaders of the church said this week that no successor for Rev. Nunn has been chosen, and it is likely that none will be selected until later in the year.

## Dates for TB Clinics To Be Set Thursday

Dates for tuberculosis clinics in towns in Jones County were to be set at a meeting in Anson Thursday at 2 p. m., when the field representatives of the state tuberculosis association was scheduled to meet with leaders of the towns.

The association provides free tests for all persons interested when the clinic is held in a town. The tests will determine whether the individual is in the early stages of the dread disease.

Civic leaders from Anson, Hamlin and Stamford met with the representatives of the association, and a schedule was worked out for the unit to follow in the county.

## Speaker for CC Banquet Has Had Varied Career

Henry W. Stanley, who will be the principal speaker for the Hamlin Chamber of Commerce annual banquet here Thursday night, March 31, has had a background of more than 20 years' experience in civic work.

Stanley is manager of the Manufacturers and Wholesale department of the San Antonio Chamber

of Commerce. He is recognized widely as an entertaining after-dinner speaker. He is coming to Hamlin through the courtesy of the San Antonio commercial club.

Entering the field of civic work through his activity as manager of the Gateway Club, the national advertising department of the El Paso Chamber of Commerce, Stanley later served as director of the Retail Merchants Service Bureau of the East Texas Chamber of Commerce, which serves 71 Texas counties.

For seven years he was director of the Trade Extension Division of the Dallas Chamber of Commerce, during which time he traveled throughout the states of Texas, Arkansas, Oklahoma, Louisiana, Mississippi and New Mexico. For two years he was a member of the staff of the Pittsburg, Pa., Chamber of Commerce, and for three years served as manager of the Hot Springs, Ark., Chamber of Commerce.

In 1933 Stanley established the Southwestern Chamber of Commerce School in Dallas, which is now one of six nationally recognized training schools for civic club workers.

The banquet will be served in the Hamlin Elementary School cafeteria, and sponsors of the event are anticipating an attendance of approximately 400 persons.

An excellent musical program will be given preceding the speaking program. Tickets for the banquet went on sale this week and are available to non-members as well as to members of the organization.

## Jay Hardware Is Sold To Weldon Carlton

Sale of the Jay Hardware store to Weldon Carlton was announced this week by Eddie Jay, who had owned the business for more than three years.

Carlton took over the management of the firm this week. Reared in the Hamlin area, Carlton has been living in Odessa for several years until he recently moved back here to make his home.

The hardware store was owned by Mrs. John T. Day before Jay purchased it in 1946.

## Car Stolen Wednesday From Street in City

A Chevrolet coupe was stolen Wednesday afternoon from its parking place near the Katy depot. The automobile, a 1938 model, was the property of A. E. Muckels, an employee of the Katy.

Muckels said he left the keys in the automobile when he parked it there shortly after noon Wednesday, and that it was not missed until 4:30 in the afternoon.

J. H. Foster, city marshal, said the state highway department has been notified, and that police in nearby towns and cities have been given a description of the machine.

## Large Coyote Slain By Hunters Monday

A coyote estimated to weigh more than 50 pounds was killed by a group of Hamlin hunters Monday afternoon about six miles east of town.

In the group were Rev. W. E. Nunn, Ed Bratcum and John Johnson. They killed the animal on the Robert Johnson farm about 7 p. m., as they were returning from a rabbit hunt.

The coyote and its mate were sighted, and the party gave chase in a Jeep. The other animal escaped.

## Huff Named Head Of District VFW Planning Group

Clyde Huff, retiring commander of the Hamlin FVW post, was elected chairman of the District 8 coordinating committee in a meeting of the 18 posts of the district in Anson Sunday afternoon.

The group went on record as endorsing the proposed bill to pay a state bonus to veterans of the recent war, Huff said Monday.

Plans were discussed at the meeting for the annual state convention of Veterans of Foreign Wars, which will meet in Ranger April 23 and 24.

The meeting was attended by retiring commanders, recently elected commanders, adjutants and other and other officers of the 18 co-operating posts.

Units represented at the meeting were Olney, Stamford, Albany, Cisco, Eastland, Breckenridge, Ranger, Clyde, Brownwood, Rising Star, Hamlin, Snyder, Colorado City, Anson, Sweetwater, Abilene and Merkel.

Huff said Monday that the 8th district is the largest in Texas in point of membership. A total of 4,329 veterans are members of posts in the district.

## Max Murrell Gets Official Bid to Enter West Point

Max Murrell, son of Mr. and Mrs. Carl Murrell of Hamlin, and who is a student in Southern Methodist University, Dallas, was given official notice Thursday that he has been appointed as a candidate for entry to West Point military academy.

The appointment came, in a letter from Omar Burleson, congressman from this district. Burleson said Murrell has been given a principal designation for the try-outs.

Murrell will complete his junior year in SMU May 25, and will go to West Point for entrance examinations on June 13. The examination will consist of aptitude tests, physical examinations, and academic tests.

Born in Coleman, December 8, 1928, Murrell entered school in Big Spring, where his family lived, in 1935. He completed junior high school in Sweetwater with high honors and attended high school for one term in Pontiac, Michigan. He graduated from high school in North Dallas in 1945 as one of the 10 top ranking students in a class of 275.

He entered SMU as a freshman in the fall of 1945, and has won high honors there as a student. Recently Murrell was selected as one of a group of students from SMU to attend sessions of the United Nations in Lake Success, New York.

## G. C. Black Gets Try For Major Ball Teams

G. C. Black, Hamlin youth, and a graduate of Hamlin High School, will get a tryout for possible contract with some major baseball club in Abilene this week, where he is attending a baseball school.

The school is sponsored by major ball clubs, who have scouts watching the progress of the various students. The school opened Monday and will last through Saturday, when the students will play Hardin-Simmons University team.

Black has had an outstanding record in high school and sand lot baseball.

## Swastika Tests Underway in Well

**Water Seepage Shut-Out Tried Before Final Completion of Ellenburger; Other Tests in**

Efforts to seal off water seepage that was encountered in the swastika section of the Texas Coal & Oil Co., No. 1 Pardue and Toler, Ellenburger discovery test, were being made this week before final completion work on the well is done.

The water was running more than 30 per cent in recovery from the hole earlier in the week. However a new cementing job was completed Wednesday and operators were preparing to perforate higher up to test the structure.

No official test has been made of the Ellenburger in the hole, but it is expected that this will be made within the next few days.

Drillstem tests in the well showed profitable production possibilities from both the swastika and Ellenburger formations. First perforations were from 3,772-80 feet, and resulted in a fair amount of oil with 20 to 30 per cent water.

Tentative plans call for a dual completion of the test with production from both zones. The Ellenburger showed signs of production from 5,950-6,050 feet. This is said to be an unusually thick pay zone. Total depth was 6,100 feet and casing was cemented at 6,094.

Top of the swastika was expected to be encountered Thursday in the Texas Coal & Oil Co., No. 1 Joe Culbertson, three miles northeast of Hamlin.

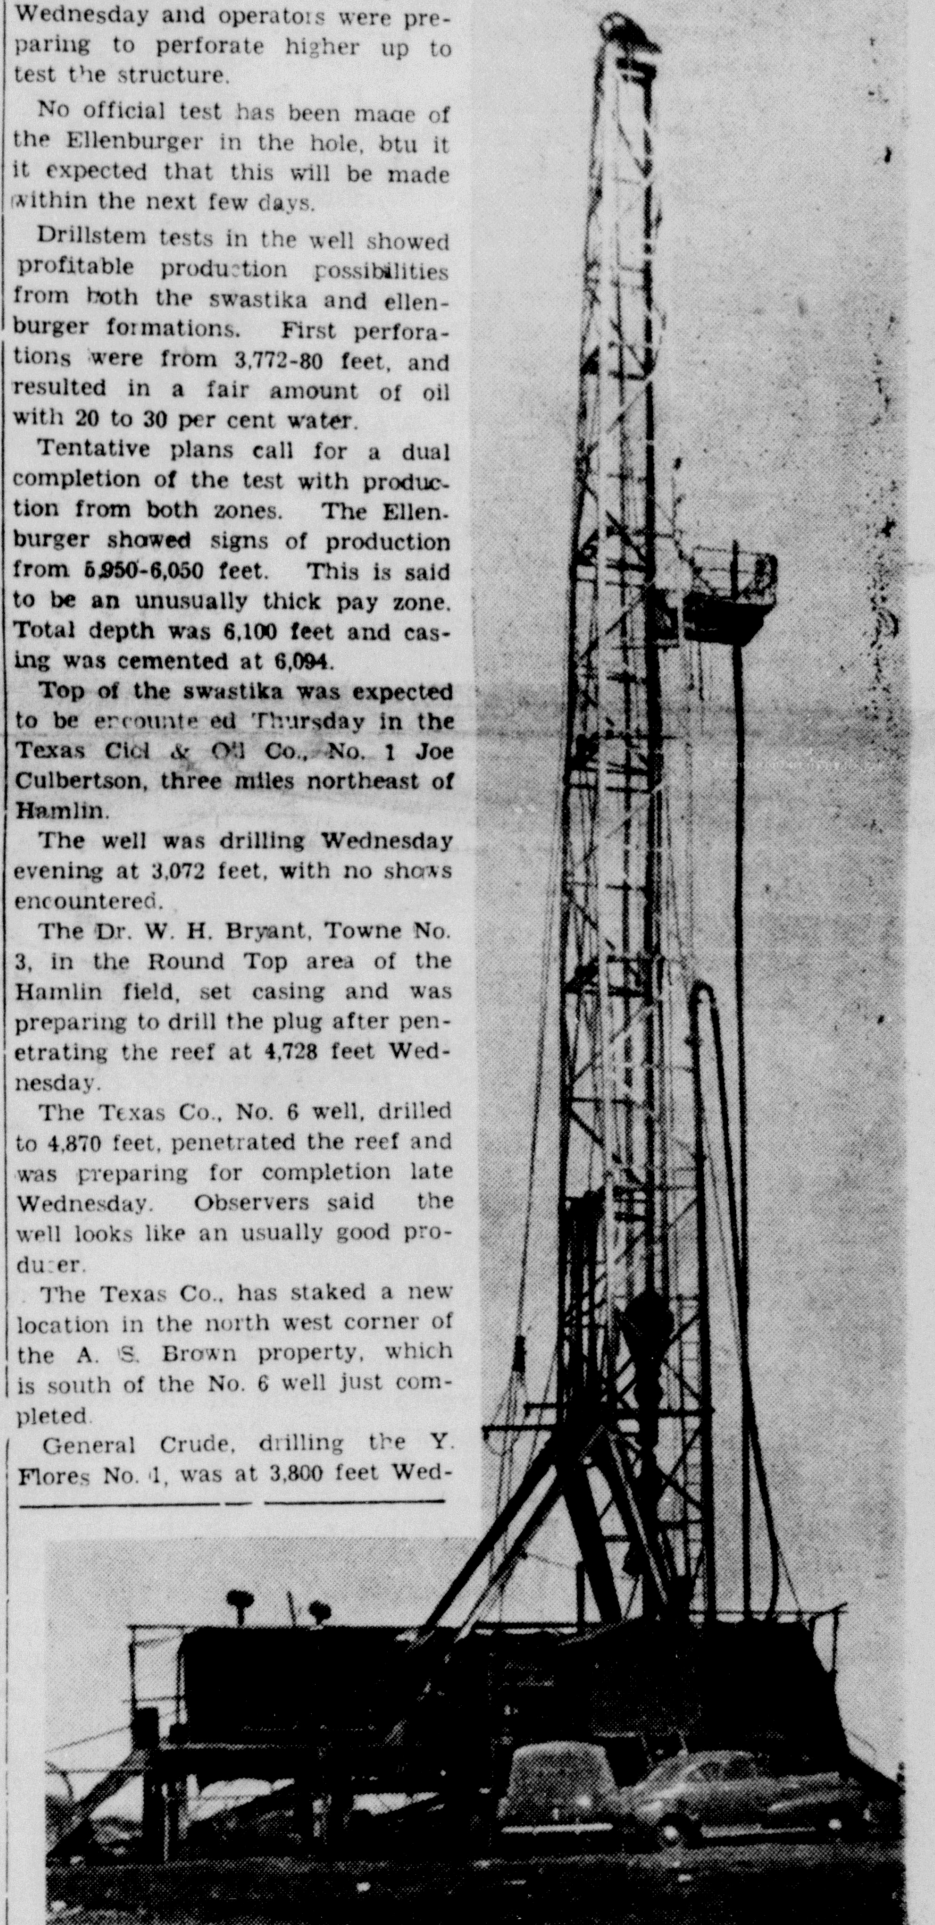

The well was drilling Wednesday evening at 3,072 feet, with no shows encountered.

The Dr. W. H. Bryant, Towne No. 3, in the Round Top area of the Hamlin field, set casing and was preparing to drill the plug after penetrating the reef at 4,728 feet Wednesday.

The Texas Co., No. 6 well, drilled to 4,870 feet, penetrated the reef and was preparing for completion late Wednesday. Observers said the well looks like an usually good producer.

The Texas Co., has staked a new location in the north west corner of the A. S. Brown property, which is south of the No. 6 well just completed.

General Crude, drilling the Y. Flores No. 4, was at 3,800 feet Wednesday.

## Rainfall Sunday Was Gauged at .35 Inch

Hamlin received its first precipitation in more than two weeks when a rainstorm was blown in by high winds late Sunday evening. Total precipitation measured following the night's showers was .35 of an inch, the city pump station reported.

Sunday night's rain makes a total of .39 hundreds of an inch for March. February gauged 1.57 inches and January, with snow and sleet, has a record of 3.69. Total for the year prior to Thursday of this week is 5.65 inches.

## GRASS FIRE WEDNESDAY

A grass fire near the Witt cabin at the city lake about 11:30 Wednesday morning caused a run of the Hamlin fire department. The fire was extinguished before it had damaged any buildings, members of the department said.

## FATHER IS ILL

Mr. and Mrs. R. J. Waddle were called to Breckenridge last week to the bedside of Waddle's father, who suffered a heart attack.

## VFW Names Member Of Planning Group

Clyde Huff, retiring commander, has been appointed as a representative of the Hamlin VFW post on the City Planning Commission, now in process of being organized.

Other members of the commission named during the past few days are J. C. Turner Jr. for the Chamber of Commerce, and Travis Hask for the Lions Club.

## Youth Suffers Loss Of Finger at School

Lane Fletcher, son of Mr. and Mrs. Watts Fletcher of the Neind community, received treatment at the Hamlin Memorial Hospital Tuesday for an injured finger.

The finger was severed just below the first joint when a door at school slammed on the boy's hand. After receiving treatment for the injury, Fletcher was taken to his home.

Mr. and Mrs. Leland Scipio of White Face, and Mr. and Mrs. Art Newcomb spent Thursday and Friday in the home of Mr. and Mrs. K. T. Scott in Hamlin.

E. W. McMillian, left, will be the evangelist in a gospel meeting slated for the Hamlin Church of Christ from Sunday, March 27 to Sunday, April 3. Edward Brown, right, will serve as song director during the meeting. Services are scheduled at 3 p. m. and 7:30 p. m. each day.

## What Others Can Do . . .

Numerous towns in other parts of Texas have provided modern swimming pools for their young people. And many of those towns have financed the projects by voting revenue bonds.

In almost every instance the pools have proved to be good business ventures, and have shown that such projects will pay themselves out in a relatively short time.

It is reasonable to suppose that what will work in one Texas town will work as well in other towns of comparable size. And therefore it is reasonable to suppose that a swimming pool, constructed with funds from revenue bonds, would provide its own source of bond retirement in our own town.

Young people in Hamlin like to swim, and most of them will indulge that liking during the summer months. They now are forced to go to Anson, Stamford, Rotan, or even to Abilene to engage in this healthful sport.

Would it not be good business, as well as a wise move, to provide our youth facilities in our home town? Would it not help to prevent some of the problems of juvenile delinquency? Would it not be less costly to parents financially, and less hazardous to the life and health of our boys and girls if they were afforded a local pool.

If other towns have tried the plan and found it workable, would it not be well for Hamlin to investigate it? What other towns can do, certainly Hamlin can try to do.

Ideality is only the avant-courier of the mind, and where that, in a healthy and normal state goes, I hold it to be a prophecy that realization can follow.—Horace Mann

## PETE'S COUSIN ARTIE IS GRADUATE OF BEST REFORM SCHOOL IN STATE; SCRIBE WITHSTANDS A TEMPTATION

scuddyhoo, tecksas, march 23, 1949

hamlin harold, hamlin, tecksas deer mistar harold:

my cuzzin artie cum to sea us yistudday and maw sed she hooped he woodint stay vury long. she sed he is a bad infloance on yung peepil. but i dont no why he had awt to be a bad infloance. he has got him a good educkashun havin jest graduated from the best reeform skule in the stait. i reckon he mustuva tuk a corse in how to be a sailer or a cow boy becaws i herd him tell unckle belshazzir that he shore lerned the ropes while he wuz in the skule.

ennyway my cuzzin droav up in his lait model tee car. i gess it must be the laitest thang out becaws i aint nevyr saw nuthin like it befur.

yistudday nite whin we got threw eatin suppir artie sed to me, he sed, "pete lets me and you toss on our glad garments and run into town. maybe we can snair us a cuppel of skerts fer a hot nite."

well i lookt at him and wuzzent shore i had understud him rite, and thin i sed "but artie, i woodint want no skert becaws i laiv always wore pants, and besides i aint gonna be hot tonite evin thow it probly will be warmr thin i wuz yistudday."

whin i sed that artie begin to laff like enythang, and he sed "i forgot that you aint hep, sun, whut i ment wuz that we wood git us a cuppel of gurls and haiv a big time at sun dump. we will reely talk in the town and we wont git hoam till sun-up." thin he wint ahd and ast me wood-int i like to maik a few bucks without no werk. he sed he had bin a casin a few joints.

so i spok up and sed "now lookie hear

## Point of No Return

The Farm Journal, which has a very large circulation among rural families throughout the United States, recently ran an exceptional editorial, which deserves the widest possible circulation. Here is what the Journal said:

"Never has a nation recovered itself, once the leaders have lured the people far into the grip of socialistic power. You can call the roll as far back as history reaches. Countries go on down to catastrophe as Germany and Italy have gone, as Rome went, and as Russia will go.

"Americans for a century and a half supported their government, kept it well out of their affairs, and so became the earth's richest people. Now more and more we ask the government to support us.

"Government offers more 'help' for agriculture, housing, education, health and other things. Everybody is encouraged to ask for something. Every government aid means more taxes and more regulation. Each new experiment fastens onto people a new load, and the load remains."

"When a flier risks stormy weather over the ocean, he approaches what airmen call 'point of no return.' Beyond that he cannot return to safety. He must take his chance on getting through.

"How near is the U. S. A. to Point of No Return?"

Sin with the multitude, and your responsibility and guilt are as great and as truly personal as if you alone had done the wrong.—Tryon Edwards.

What you believe must influence what you are. What you are determines what you do, and what you do determines your value here and hereafter.—Jane Tudor

artie, my maw tole me yeers ago that it aint honist to maik no money without werk-in fer it, and besides i haiv bin a werkin a ritin artickels fer the paiper fer severil munths and i aint evin got no pay fer that yit." you sea i wuz thankin about that check you aint sent me yet.

artie jest lookt at me kinda funny and sed "well i had awt to haiv noed bettir thin to thank a hick like you wood want to git in with a big time operatir, but if i evir heer of you singin to the cops it shore will be to bad fer you."

now i haiv bin a wunderin evir sents why he woodint want cops to heer musick. the joak is on him thow becaws i dont evin sing to myself, let aloan singin to sumbody i dont evin no.

ennyway artie clumb in his lait model tee and droav off and i didnt no until thin that unckle bel had bin a layin down behind sun bushes wher we wuz tawkin and he herd the hole thang, him bein a reepublickan.

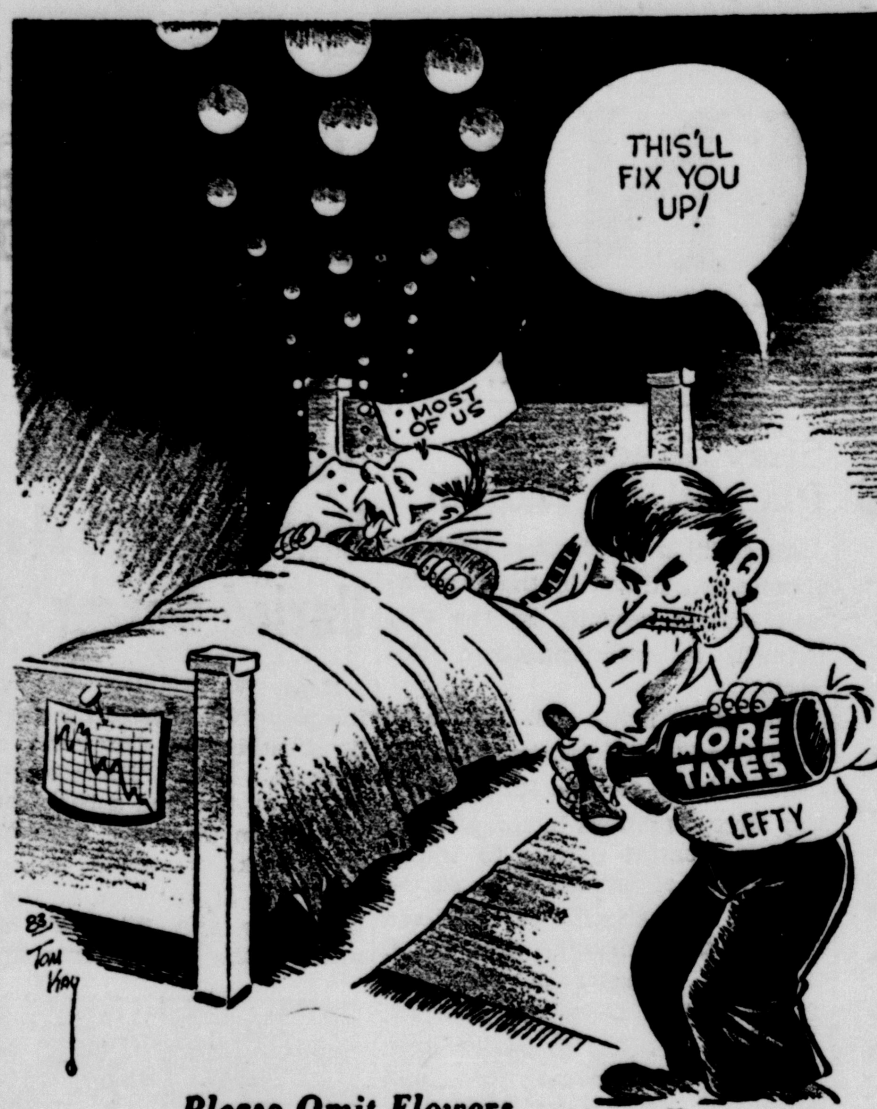

unckle bel sed to me "sun, you dun a nobel thang whin you tert down temptashun like that. who noes if you had uva sed yes to the temptir that you mite haiv died a shameful deth. i am rite prond of you, and i want you to no that you will git yore reeward in the end."

but, gosh, if i had uva noed that i wood druthir haiv yeelid to temptashun, becuz i gineraly git my reeward in the end and it dont feal very good.

it lookt like we wuz gonna haiv a storm in this naborhood sundie nite, but whin the clowd cum ovar it ternd out jest to be full of hot air.

hoapin you are the saim, yores troolie, yore frend, pete odle

## Teachings of Jesus Are Practical in Business, Everyday Life, Peale Says

By Dr. Norman Vincent Peale

Some time ago, while on a speaking tour into the Middle West, I was aboard a sleeping car. In the morning a man swung out of the upper berth, climbed down the little ladder and to my astonishment called me by my name and gave me a cheery greeting. He further surprised me by extending an invitation to breakfast with him as his guest. On my travels I meet many pleasant and friendly people but it is not every day that a man drops out of an upper berth to invite me to breakfast. He seemed to be a very friendly fellow and I gladly accepted his invitation.

Going into the diner, we sat down at a table and ordered our breakfast. He said he had been at the meeting at which I had spoken the previous evening. On that occasion I spoke, as I usually do, on how Christianity, applied as a scientific procedure and technique, can enable one to overcome tension, conquer fear and gain the inner secret of happy, useful living.

As we ate our breakfast he said, "I wished to talk to you because what you said last night is absolutely true; there is nothing theoretical about it. It was that philosophy of life that saved my business and it saved my life as well. I was being hard pressed; I had some large loans outstanding. At that time I was developing a good idea but did not seem to be able to develop it rapidly enough. Failure was crowding me and I got so I could not sleep. I was high-strung and irritable; I was really a sick man. All joy and happiness and effectiveness seemed to have gone away from me.

Then I turned back to the teachings of Jesus and I read them—those simple principles which He outlined. I began to practice them and gradually my mind became filled with a deep peace. It was almost like a benediction. When finally I was composed and serene, I began to think clearly again my public and private relations improved, and success attended them."

This man had found a rare secret which happily eludes altogether too many people today. The old, outmoded, antiquated, moth-eaten idea that religion is a theoretical matter, that it is a pleasant proposition for Sundays, but that it has no practical place in everyday living, is being broken down, but it has not been wholly destroyed. This generation, which is under pressure greater than any previous generation, is discovering that what you find in the Bible may be described as a medicine, as a science,

or as the most skillful plan of human living that has ever been laid down.

Jesus said, "I am come that they might have life and that they might have it more abundantly." It is a fact that this generation is filled with people who do not have abundant life. Such people do not conduct themselves in a disciplined manner. Licentiousness and undisciplined living always are a frantic reaching out for life. When a man is master of his life he does not act in those ways. He is composed because he has untapped reservoirs of power. He is never discouraged, nor unduly concerned, he is master of all he surveys.

It is futile to be disturbed and lacking in serenity, to be high-strung and nervous, to be filled with defeat. It is not necessary for a normal, intelligent person to be defeated by life. It just does not make sense. Dr. Paul DuBois, one of the world's most famous psychotherapists, says, "Religious faith is the best preventative against the maladies of the soul, mind and body; and it is the most powerful medicine we have ever discovered for curing them. The person who truly has this kind of religious faith becomes invulnerable."

## VETERANS' NEWS

Veterans Administration has conducted a training program for corrective therapists at the Winter VA hospital in Topeka, Kansas, to broaden their understanding of the needs and problems of neuropsychiatric patients.

The course—the sixth given for corrective therapy personnel in VA hospitals—was a joint program of the Division of Physical Medicine Rehabilitation of VA's Department of Medicine and Surgery, and the Division of Adjunctive Therapy of the Institute of Psychological Medicine.

Training programs previously were conducted at VA general medical and surgical hospitals in Richmond, Virginia; Pines, Illinois, and Los Angeles, California. Two previous courses also were held at the Topeka hospital.

Future training programs are planned for the Topeka VA hospital and for other general medical and surgical hospitals, to keep corrective personnel informed of the latest developments in their field.

No man was ever so completely skilled in the conduct of life as not to receive new information from age and experience.—Terence.

Every little fur-bearing animal becomes a mink when it dies.

## Danger to National Security Is Seen in Cut Appropriations for Air Force

BY GEORGE PECK

The Administration and Congress are flitting with disaster in their policy of "Better late than never" regarding national defense and especially about airpower.

It is agreed by the military experts that America must have top-grade airpower to maintain its safety and all are unanimous in pronouncing that to assure building that vital airpower, we must have a program covering a minimum of five years.

In 1948, after several years of study, Congress authorized the beginning of a 5-year program on a minimum base. It appropriated money to inaugurate the program. It was estimated that, followed to its logical conclusion, by 1953 we would have a first-grade airpower, with good, new planes, personnel to fly and maintain them and production facilities adequate not only to handle replacement but for quick expansion in case of emergency.

That was last year, but now, as Congress digs into the new budget, this program has vanished into thin air. Originally, the 5-year program called for 70 air groups by 1953. Under the new proposals this is to be cut to 48 groups. After spending a full year arranging the business of airpower for the next five years, aiming at a safe, sure goal, our Air Force now learns that these plans are to be scrapped.

This is nothing short of suicide. The complexity of modern aircraft plans and production will not permit year-to-year juggling. Airpower must be carefully planned in advance and then followed through on a business-like, rational basis.

In the opening days of the 81st Congress, Representative Carl Hinshaw (Calif.), vice-chairman of the Congressional Air Policy Board, expressed his feeling and that of other Congressmen about this threat to our national safety. Said Mr. Hinshaw:

"While all of the groups that have surveyed the problem, recommended an Air Force of 70 groups, the budget that has been given us proposes only 48 groups.

"This budget is so startling that there is very little one can say about it except to ask for an explanation. What in the international situation has justified the abandonment of the long-term plan that competent authorities have deemed so essential? How have our foreign relations improved to justify abandoning the 70-group program? What reason is there for ignoring the findings of the Air Coordinating Committee, the Senate Committee, the Senate Committee to Investigate the National Defense Program, the President's own 'Finletter Commission', the Congressional Aviation Policy Board, and the Survey of Stanford University?

"This budget means that air craft production programs, just barely started, must be cut back. Indeed, the cutbacks with their attendant layoffs of skilled workers already have begun. In addition large sums of money already expended for tooling, for expanded facilities and for recruiting of workers, will be wasted. Yet, we are going to

waste these sums of money on our expansion plans of the window. We will have to repeat the process of tooling up and expanding sometime, only it will be more costly. We will have lost time."

From all the hot arguments as to whether we require a 70-group Air Force or whether a 48-group will suffice, one thing stands out like a sore thumb—the basic necessity for long-range planning, and following through on those plans. This nation just cannot afford "too late with too little" in personnel and production facilities. It is true that "it's better to late than never," but it's a late right now.

Write your Congressmen, your two U. S. Senators, their immediate attention to grave problem.

Q.—Veterans Administration decided that vocational training under Public Law 16 to be "medically not feasible" for me. Will such training be provided at a later date if feasibility for training should then be established?

A.—Yes, if all other requirements of the law can be met. In such case, vocational training may be provided as soon as medical ability is established. In the time, your application for vocational rehabilitation is referred to the rehabilitation board in the office. This board follows application and at regular intervals arranges for any service which might be helpful in accomplishing vocational rehabilitation.

Q.—Is it true that National Service Life Insurance pays the insured veteran \$5 per month for each \$1,000 of insurance in force while he is totally disabled?

A.—If the veteran pays the necessary extra premium, he will be paid \$5 per month for each \$1,000 of insurance in force after he has been totally disabled for six consecutive months. Application for total disability income may be made at a local VA office.

However learned or eloquent knows nothing truly that is not learned from experience and land.

Matthew Vassar, a brewer of Vassar College in 1861.

## By Gene Byrnes

## Neinda News

E. K. WHITTENBURG

Large crowds attended services at both the Methodist and Baptist churches here last Sunday.

Mrs. John Spradin, who has been a guest of her daughter, Mrs. Bill Scott, for several weeks, returned to her home in Bell, California, last Friday.

Mr. and Mrs. Hershel Hubbard and family of Midland spent the

week end as guests of relatives here.

Mr. and Mrs. Phil Hetsel of Coleman spent last week end as guests of Mrs. Hetsel's parents, Mr. and Mrs. John R. Brown.

Guests of Mr. and Mrs. P. J. Brown this week were their two daughters, Mrs. Hosie Middlebrook of Anson and Mrs. Raymond Moulton of Midland.

Billia Maynard, who is employed in Abilene, spent Sunday with her parents, Mr. and Mrs. Bill Maynard.

Mrs. Tom Jones, who with her husband was in an automobile accident several days ago, is still un-

der treatment in a hospital. Jones also suffered injuries, but has been returned to his home here.

The singing at Neinda was well attended Sunday. Several out of town singers were present for the program.

Mr. and Mrs. L. B. Williams of Abilene were visitors in Neinda Sunday and attended the singing.

Grandmother Crowley of McCauley was a guest this week in the home of her son and daughter-in-law, Mr. and Mrs. Cliff Crowley and family.

Mr. and Mrs. Donley Williams, students at Hardin-Simmons University, Abilene, spent the week end with Williams' parents, Mr. and Mrs. Jack Williams.

A birthday dinner was given in the home of Mr. and Mrs. Hollis Madden, Sunday, honoring Jerry Crowley. Those present were Mr. and Mrs. Otis Tucker of Anson, Mrs. J. A. Crowley and daughter, Janet, of McCauley, Mr. and Mrs. Cliff Crowley and sons, James and Jerry, Mr. and Mrs. Hollis Madden and Frankie Sue Madden.

Time to me this truth has taught,  
(This a treasure worth revealing)  
more offend from want of thought  
Than from want of feeling.

—Charles Swain

When men speak ill of thee, so  
live that nobody will believe them.

—Plato

**It's in the Bag!**

You can serve the finest of coffee, yet keep an eye on the budget, too. Get acquainted with whole-bean, bag coffees at Safeway. The whole bean locks in freshness; keeps it in till coffee is ground at time of purchase. Result: inexpensive packaging is possible; you make a substantial saving every time you select a bag of coffee at Safeway.

But don't let the lower prices mislead you. These are the world's choice coffees, selected, blended, and roasted by coffee experts. Frequent deliveries to your Safeway assure freshness always.

You can get a blend to please the taste of every member of your family. One that's hearty and vigorous or one that's mild and mellow. You can get the right grind for your coffee maker, too. Modern precision mills are instantly adjustable to grind coffee exactly right for your method of preparing it.

Yes, extra coffee savings are "in the bag" at Safeway.

### Mrs. Stephenson Is Guest of Relatives

Mrs. Etta Stephenson has returned to her home in Hamlin following a two weeks' visit with relatives in Sulphur Springs, and with her brother, W. B. Glass in Seminary Hill.

Miss Lois Glass, daughter of Dr. Glass, and Miss Wilma Meeks, a house guest of Miss Glass, recently returned to the United States from China, where they had been serving as missionaries for the Southern Baptist Convention.

They were evacuated from China about 10 days ago, in advance of the taking over of their area by the communist armies. Miss Meeks will soon be transferred to Hawaii for missionary service and Miss Glass will make a lecture tour of this area. It is planned for her to lecture in Hamlin on the tour.

### Officers Are Elected By VFW Auxiliary

Mrs. Clyde Huff was re-elected president of the Hamlin Ladies Auxiliary of the Veterans of Foreign Wars, when the annual election was held Tuesday evening.

Other officers elected at the meeting were: Zelma Perryman, senior vice president; Ruby Scarborough, junior vice president; Mildred Howard, treasurer; Patsy Newland, chaplain; Mrs. D. W. Carlton, assistant chaplain; Totie Townley, conductress; Beatrice Huling, guard.

Violet Milliron, first year trustee; Edith Ely, second year trustee; and Mary D. Hymer, third year trustee.  
Mrs. C. P. Yates was voted the outstanding member of the auxiliary for the past year, and mother of the year. Mrs. H. M. Rawlins, mother of Commander Clyde Huff, was voted into membership at the meeting.

### Officers Are Elected By Fairy Blue Birds

Officers for the coming three months were elected by the Fairy Blue Bird group in a meeting in the scout hut Wednesday.

Officers named were: Marsha Carson, president; Judy Parker, vice president; Glenda Wick, secretary; Elizabeth Ann Johnson, reporter; and Wyvonne Conner, Judy Sproles, Joap Hallan and Salla Jo Goodwin, monitors.

Following the election refreshments were served by Mrs. Fred Carson.

The girls attended church in a group at the First Methodist Church last Sunday.

Just received — a shipment of Pat Pin-on Pencils at The Book SHOP. 6 colors to choose from.

### Mrs. Walton Hostess To GA Party Monday

Mrs. John Walton was hostess in her home to members of the Intermediate Girl's Auxiliary of the First Baptist Church, in her home for a social Monday evening.

Theme of the party was St. Patrick, and the table was decorated in the tradition green shamrock and white candles.

A scene representing the Old Woman in the Shoe added to the Irish motif of the occasion. Roll call was answered by the singing of Irish Songs.

Jere Lynn Irwin directed the games. Following the games refreshments were served by Dorothy Altum and Eleanor Huchingson, with Barbara Posey presiding at the punch bowl.

Members present were Eddie Decker, Kathryn Ritchey, Adell Altum, Glynda Hallmark, Gwendolyn Norris, Patsy Parker, Bennie Elkins, Mary Lee Roland, Jo Ann Carroll, Maye Milliron, Jeanine Deel and the hostess, Mrs. Walton.

Guests were Roberta Wilkins, Dorothy Turner, Kay Bessire, Laverne Higdon, Nora White and Mrs. Ben Parker.

### JIM FAULK MARRIES

Jim Faulk, who is employed in Hamlin by the National Geophysical Co., was married March 19 to Miss Leta Williams of Big Spring. They will make their home in Hamlin.

Miss Judy Via of Breckenridge spent the week end with her mother, Mrs. Dora Via, and her sister, Mrs. Joe Culbertson.

Mrs. J. V. Millsap is a guest of relatives in Abilene this week.

Mrs. Stella Turner returned to her home in Hamlin Saturday from a visit with her children in Fort Worth and Dallas. Her son, George Beavers of Fort Worth, accompanied her here to spend the week end.

It is not well to see everything, to hear everything; let many causes of offense pass by us unnoticed. —Seneca

### Fifteen New Members For Hamlin C of C

Addition of 15 new members to the Hamlin Chamber of Commerce membership rolls was announced this week by Mrs. E. M. Wilson, secretary.

The new members resulted from a drive that has been underway this week. The drive will be completed within the next few days.

Those who enrolled during the week are J. E. Patterson, manager of the Hamlin Memorial Hospital, Dixon Grocery, Weldon Carlton, Harden Coffee Shop, Hudson and Dodd Service Station, Touchon Service Station, W. L. Fletcher Jr., BH Laundry, Monroe Tabb Laundry, John C. Turner Jr., Moore Grain Co., Steve's Texaco Station, Gill Conoco Station, Butler's Service Station, and T. C. Robertson Jr.

### Planning Commission For All Civic Groups

The proposed civic planning commission, now under process of being organized in Hamlin, is for all civic groups and clubs, it was said this week by proponents of the plan.

Representatives of several organizations had been announced prior to Wednesday of this week, and other organizations have said that representatives will be named soon.

It was pointed out by those working for the organization that all clubs and groups, no matter how small, are entitled to name members. It is hoped to have a membership or not less than 10 when the commission finally is ready to begin work.

To unish ourselves for others' faults, is superlative folly. The mental arrow shot from another's bow is practically harmless, unless our own thought barbs it.

—Mary Baker Eddy

Kem Glo, the new enamel, available at Paul Bryan Lumber Co.

FOR SALE Signs at The Herald.

**Automatic Merchandising**  
Origins of automatic vending have been traced back some 2,000 years to the Graeco-Roman era in Egypt, when Hero of Alexandria recorded the ideas of using a coin-actuated lustral vase in his Pneumatics. This device was a sealed vessel, placed at the entrance of a temple, from which worshippers could obtain a few drops of purifying holy water by dropping five drachma or more in coins into the slot at the top of the vase. Hero's writings are placed anywhere from 180 B. C. to 250 A. D. by historians.

**New Stamps for Guatemala**  
Guatemalan post office has issued four new stamps and overprinted an old design for airmail use. The postage depicts a laborer with a shovel and sledgehammer, the cogwheel of industry is in the background. The values and colors are 1 centavos green, 2 c sepiá, 3 c blue and 4 c red. The airmail, 5 centavos pink and white, shows a map of Guatemala and is overprinted "1943 Aereo".

**Two of Five Matches Free**  
About 50 years ago Americans paid cash for every match they used. Then a big match company introduced the book match, promoted it as a giveaway with tobacco purchases. As a result the present generation receives two out of each five matches free and the per capita match bill is lower than it was a half century ago, contradicting the general economic trends.

## Market Trend Continues Strong, as Some Weak Spots Develop USDA Says

Some weak spots appeared in mostly steady to strong southwest farm markets during the past week the U. S. Department of Agriculture's Production and Marketing Administration reported.

Sorghums lost 8 cents a hundred pounds for the week, and yellow corn gained 1 1/2 cents a bushel. Changes on other grains were confined to a cent or less. No. 2 yellow milo closed Monday at \$2.60 to \$2.65 at Texas common points. No. 2 yellow corn brought \$1.57 1/4 to \$1.59 1/4, white corn \$1.70 to \$1.73 1/4, and No. 1 wheat \$2.39 1/2 to \$2.45 1/2.

Rice markets remained firm to strong last week. Some Louisiana rice farmers began seeding Zenith for the new crop. Unsettled conditions ruled feed markets, with some quotations higher and others lower on many of the same feeds. Easier undertones appeared at hay markets. Peanut prices held firm in the southwest.

Poultry sold firm to stronger in the southwest, while eggs held about steady. Fryers ranged from 30 to 33 cents a pound in Texas, Louisiana and Arkansas, and 30 to 36 at Denver. Heavy hens sold from 32 to 35 cents in North Texas, 24 to 36 at Denver, and 39 to 43 at New Orleans. Eggs brought mainly 35 to 40 cents a dozen.

Regular season movement of strawberries got under way in the Hammond, Louisiana area and in South Texas. Week-end auction sales at Hammond ranged from \$6 to \$6.25 per 24 pint standard or display.

### DOCTORS DISAGREE ABOUT ARTHRITIS!

These claims it is incredible—not only so, but this new liquid analysis gives them wonderful relief from pain and discomfort. REUMA-RUB is a pleasant-to-use Alcoholic Rub that penetrates and stimulates your aching muscles and joints. Just warm and gives welcome relief. And remember, you must find that REUMA-RUB gives more relief from pain of Arthritis, Lumbago and Rheumatism than any external remedy ever used—or your money refunded. A large bottle of REUMA-RUB costs only \$1.25 at your Druggist or at

REYNOLDS DRUG STORE

play crate of Klondikes. Louisiana sweet potatoes and Colorado potatoes strengthened under good demand. South Texas carrot prices weakened but spinach held steady. First car of onions rolled from the Valley.

Sheep advanced 50 cents to \$2 at the different markets. Medium to good trucked in woolled slaughter brought \$26 to \$27.50 at Denver good and choice old crop lambs at \$28. Fort Worth received choice spring lambs at \$28.50. San Antonio bought common and medium shorn Angora goats at \$8.50 to \$10.

WoWol trading held to an extremely narrow range last week.

Monday's hog prices showed little change from a week earlier. Butchers sold mostly at \$21.75 to \$22.50 at Denver, \$21 to \$21.50 at Oklahoma City, \$20.50 to \$20.75 at Fort Worth, and \$20.75 at San Antonio. Sows moved generally from \$16 to \$17.50. Pigs gained \$1 at Oklahoma to bring mostly \$20.50.

Most southwest cattle sold unchanged to 50 cents higher for the week, though calves at Fort Worth and stocker calves at Denver lost up to \$1. Good stocker steer calves changed hands at \$28.50 at Denver Monday. Choice stocker yearlings and calves sold up to \$26 at Oklahoma City. Medium and good stocker calves went out at \$22 to \$26.50 at Fort Worth, \$24 to \$25.25 at San Antonio, and \$22 to \$25 at Houston.

Receipts of cattle, calves, hogs and sheep last week each fell slightly below the week before but greatly exceeded the same week last year at the 12 leading markets.

Cotton closed 25 to 550 cents higher with Dallas and Houston at 32.40 cents a pound and New Orleans 32.45.

To ruminate upon evils, to make critical notes upon injuries, and be acute in their apprehension, is to add unto our own tortures, to feather the arrows of our enemies, and to resolve to sleep no more.

## Radio-Telephone Comes to The Farm

SEDALIA, MO. — Progressive farm equipment dealers have seized on the new radio-telephone service to speed up farm service calls and solve an old problem: how to keep contact between the service truck and the dealership sometimes many miles apart. Emergency calls for repair work on farm implements sometimes come at critical times during harvesting or planting season, when every lost day costs money. Service was slowed by sparse communications in the rural areas, so that service trucks burned up valuable time retracing steps. Some farm equipment dealers have installed radio-telephones in their service trucks. Now the home office can put the service truck on an emergency job almost immediately and maintain constant communication with the operator in the field. Above, Scudder Hull of the Engle Tractor and Implement Company here, puts in a call from a customer's farm to his office, using the radio-telephone in the service truck.

## Lions View Picture; See Preview of Play

A moving picture in natural color, "America the Beautiful," was shown to members of the Hamlin Lions Club at their Tuesday noon luncheon meeting. The picture was brought to the club meeting by I. R. Huchingson, school superintendent.

Members of the cast of the senior play, "You Can't Take It With You," gave a performance, giving the Lions Club a preview of two scenes in the play.

## Hopper Plague to Cut Farm Yields In This Section

A heavy infestation of grasshoppers will plague farmers and ranchmen in a wide section of the mid-west during this year, the United States Department of Agriculture has warned in a statement this week.

The warning was sent out Thursday by Bill Lehmborg, Jones County farm agent, who said a survey of grasshopper egg beds gave rise to the warning.

Two new chemicals, chlordane and chlorinated camphene, have proven to be excellent controls if applied to young hoppers soon after hatching, Lehmborg said. Both chemicals should be used with caution, he warned, as they can cause damage to livestock feeding where it has been applied.

Grasshoppers hatch in pastures and along the river banks and then move to fields when the young grass shoots and tender weeds have been devoured.

The ideal time to apply the chemical control is immediately before the hoppers move to the fields, Lehmborg said. He recommended application of 3-4 pounds of chlordane to the acre or 1 1/2 pounds of chlorinated camphene per acre as a spray, or two pounds as a dust.

Chlordane has a residual effect for about 10 days under good conditions. Chlorinated camphene should not be applied to forage or grass that is to be fed to beef or dairy animals, or on parts of a plant that are to be eaten unless the residue is washed off, he warned.

Harvard University is in Cambridge, Massachusetts.

Mr. and Mrs. O. L. Taulman and son, Otel Jr., of Odessa, spent the week end in Hamlin with Mrs. W. W. Green.

Dr. W. C. House, pastor of the Methodist Church, and his sister, Mrs. Mills, are guests of relatives in Dallas this week.

**Ball Gum**  
Ball gum, the candy-coated chewing gum, was first placed on the market in 1909. First flavors used were peppermint, spearmint, wintergreen and fruit, but the candy coating on all flavors was white. It was not until 1915 that color was used to give "eye appeal" to the gum in the machines, and to designate different flavors.

**London Museum To Move**  
Arrangements have been completed to house the London museum in part of Kensington palace for a period of 15 years. The return of the museum to the historic building with which it was first associated was made possible by King George VI.

**Desiccation Under the Elms**  
In a single hot summer day, as much as 50 barrels of water may evaporate from the surface of the leaves of a large elm tree, says Dr. Curtis May, shade tree specialist of the U. S. department of agriculture.

**Paprika**  
Paprika may be used to decorate lettuce by placing the lettuce in a bowl of water where it has been sprinkled. Tiny flecks will stick to the lettuce.

**Old Pajamas**  
Do not throw away adult's old pajamas. There is usually enough good material left in them to make pajamas for children.

**Kem Glo**, the new enamel, available at Paul Bryan Lumber Co.

New novelty GIFT items arriving almost daily at THE BOOK SHOP, phone 63.

## Geophysical Firm Is Putting Office Here

Offices of the Robert H. Ray Geophysical Company were established in Hamlin this week, it was reported Tuesday by Mrs. E. M. Wilson secretary of the Chamber of Commerce.

The company is occupying office space in the old Hamlin Hatchery building.

Employees of the firm who came here Tuesday include three men with families and five single men. Mrs. Wilson reported. Housing was found for all of the employees by the Chamber of Commerce.

### Doing Same as Usual.

The minister met one of his parishioners on the street.

"How's your cold?" he asked.

"Very obstinate."

"And how's your wife?"

"About the same."

### Suit Your Shrubs to Locality.

Most shrubs like sunshine. There are some that will grow only in the shade. And some plants need certain types of soil. So the landscape gardening specialists say to be careful when choosing shrubs for the yard.

### And the Drink's Extra.

"I'd like a dollar dinner, please."

"Yes, sir, on white or rye bread, sir?"

Blest is that Nation whose silent course of happiness furnishes nothing for history to say.—Thomas Jefferson.

### No Special Delivery Done.

Mama—"Papa, should I take Junior to the zoo tomorrow?"

Papa—"Absolutely not; if the zoo wants him, let 'em come and get him."

### Assemble Laundry Along.

Laundry assembled through the week in a hamper or closet requires less time than collecting the soiled clothes from all over the house on wash day.

Have you seen the lovely new Voland EASTER CARDS at THE BOOK SHOP? Come in early while our selection is good!

## SHORT STORY

### Money For Love

By LOUIS CUNNINGHAM

"GIRL reporters are the bunk," growled Harriman, the crime expert. In the news-room of the Comet. The pulsing presses that shook the building getting out the last edition brought the toilers under the eye-shades a pleasurable sense of rest after hard work well done. It was the acceptable time for airing theories and grievances.

"As I was saying," continued Harriman, "women in journalism and men in dress-making are one and the same. Now if Brickley, ordinarily a half-

But Dale had known Alicia Delano long enough to be in love with her.

Further discussion of Alicia was postponed by the turbulent entry of the city editor, Brickley. His de-  
"Crab!" interrupted Dale Harmsworth, a fresh young reporter. Dale had known Harriman long enough to be in proper awe of the great man.

"What do you think of it, Alicia?" asked Dale, discovering his lovely neighbor and quickly telling her what it was all about.

"Fifty thousand dollars!" he sighed. "Just imagine, Alicia, what one could do with that. Why..."

Later, when he had her alone in the secluded corner of their favorite restaurant, he took a deep breath. "I'm going after that money," he declared determinedly. "I need it, if... if I get it... Alicia, darling, have I ever told you that I love you? If I get the money will you... marry me?"

THE girl smiled and raised her head. There was something in the warm blue eyes and the set of the lovely mouth, framed by her reddish hair, that made the palm

"I love you, Dale," said Alicia, solemnly.

tree behind her dance a madrigal before Dale's dreaming eyes.

"I love you, Dale," said Alicia solemnly. "I will marry you."

Then she twinkled. "Let's do it right away."

Dale and Alicia were married that week and their radiant young faces in the newsroom advertised their happiness. The marriage, however, they kept secret, although they managed to find a small apartment, to be furnished with their joint savings. But how to keep it was a puzzle, unless Dale discovered the princess.

"It seems a hopeless task, Alicia," lamented Dale. "Everybody's giving up. This Princess Mariana is the best little hider imaginable."

She pulled his ear teasingly. "Don't worry. Things will look different in the morning."

Alicia was a prophetess. Dale awoke to find a strange girl sitting at the foot of the bed. The morning sunlight was no more golden than her hair. Her eyes danced with mischief.

"What... what... Alicia?" "I told you things would be different in the morning. But it is still Alicia... minus the hair dye... Mariana Alicia Delano di Bartholdi... Mrs. Dale Harmsworth. My mother was an American. So I don't mind if you tell on me now, Dale, but be sure and get the money from dad before you mention that I'm your wife. We need it for our honeymoon."

Released by WNU Features.

Myopia is another term for near-sightedness.

### Murffs Are Hosts to MYF Group in Party

Mr. and Mrs. Joe Murff entertained members of the Methodist Youth Fellowship of the Dove Methodist Church at a party in their home last Saturday evening. Those who attended were Billy Wayne Gabriel, Garland Ludecke, Virginia Mayfield, Billy Newland, Norma Jo Murff, Annie Lee Turner, Marlene Goodgame, R. L. Goodgame, Jr., Shasta Payne, Emma Payne, Delwin Ludecke, Bob Ludecke, Melba Turner, Benson Payne, Mr. and Mrs. Jake Cooley, Mr. and Mrs. Gerald Renfro and Mr. and Mrs. Raleigh Bonds. Juanelle Newson of Midland was a special guest at the party.

### Senior Class Play Is Set for Presentation

Following several weeks of work and rehearsals, the cast of the annual senior play had completed preparations for presentation of the entertainment, and the performance will be given Friday night at 8 o'clock.

Title of the play is "You Can't Take It With You," a 3-act comedy. It is directed by Miss Billie Kathryn Lancaster.

Two performances are planned. The first, a matinee, will be given during afternoon school hours, and the other will be the night show.

James Monroe was the fifth president of the United States.

### Plainview Voting Box Abolished by County

Following presentation of a petition signed by most of the residents of the Plainview precinct, the Jones County Commissioners Court voted Monday to abolish the Voting box at that place.

Voters who live north of the east-west road through Plainview henceforth will vote in the Tuxedo precinct and persons living south of the road will vote in the north Anson box.

#### ATTENDS MEETING

Roy Hartgraves spent the first part of the week in Dallas, where he attended a state meeting of Firestone dealers.

### Stamford to Survey New Water Project

Survey of a new lake site for city water supply was authorized by the Stamford City Council this week, when the engineering firm of Freeze and Nichols was given the contract.

The survey will take in a proposed site on Paint Creek, which, it is believed, will provide 45,000 acre-feet of water. Drainage area for the proposed lake will take in 300 square miles.

It is estimated that cost of the project will approximately \$1,100,000.

Dr. G. C. Boswell of Ranger, has been nominated by the Ranger Rotary Club for district governor, and will be boosted for the position by friends throughout the district at the annual convention in Mineral Wells, April 24, 25 and 26. Dr. Boswell is a past president of the Rotary Clubs of Weatherford and Ranger.

### Smallpox Seen As Menace for Unvaccinated

With the appearance of an unusual number of smallpox cases during the past week, Dr. Geo. W. Cox, State Health officer, has issued a warning that this dangerous, disfiguring and often fatal disease can once become a widespread health problem unless vaccination is used to protect the public against it.

Four cases of smallpox were reported from one county, and while that number may not seem great, it is nevertheless the same total as was reported for the whole state during the entire year of 1948.

"Smallpox vaccination, which affords complete immunity from this disease, is a painless, inexpensive procedure, which should be used to protect every individual in the state," Dr. Cox said. "When we grow lax about our vaccination and allow susceptible persons to be exposed to smallpox, it follows that the disease will spread throughout the unvaccinated population, bringing serious illness and possible deaths."

Dr. Cox urged all parents to see that their children have been properly vaccinated, and if there is doubt about the immunity still being in effect they should be given another vaccination. If they are immune, the vaccination will not "take", but if it does take, then the immunity was low and the vaccination was needed for their protection. "This same thing applies to adults," Dr. Cox said. "Check and be sure that your own immunity is established, as well as that of your children," he advised.

### Serving the family, community and nation

Did you ever stop to think that we live, we learn, we travel—all through the pages of the newspaper we read! How much broader is the scope of our lives, because we can read about the wide world in newsprint... How much more we know about people and politics; child care and cooking; health and happiness—because our newspapers covers everything! Its editorial columns better our way of life too, by championing the democratic way when vital issues face us as a family—as a community—as a nation! And praised be its advertising columns for simultaneously serving our needs and our budgets! All in all there is no truer "public servant" than your newspaper and ours!

## Toward a Final Peace for the Holy Land

While separate negotiations continue between the new state of Israel and the Arab nations, truce teams (1) sent by the United Nations, check opposing Arab and Israeli positions during informal conferences somewhere along the front. Meantime, (2) at United Nations Headquarters on the Island of Rhodes Acting U.N. Mediator Ralph Bunche (center) initials armistice agreement between Israel and Egypt, as U.N. plane (3) stands by to take truce teams anywhere they might be needed. The Israeli and Egyptian chief representatives (4) join in a friendly handshake after signing an armistice to end fighting between the armies of their countries.

## Cotton Markets Waver as Strong Demand Is Seen

Export demand for cotton stirred up moderate activity in Oklahoma and Texas markets during the past week, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Prices offered were more attractive to local merchants and shippers. Spot demand was good for all qualities. Some export sales were made more than through the ECA program.

Domestic mill purchases of cotton were confined to small lots for immediate needs.

Equities in government loan cotton moved rather slowly in country markets last week. Some sales were made at \$2.50 to \$6 per bale but most farmers were reluctant to sell at the prevailing prices. Some of the better qualities of cotton in staple lengths 1 through 1 1/8 inch are in rather scarce supply.

Cotton quotations moved within a narrow range with Monday's close at 32.30 and Friday's close at 32.50 cents per pound for Middling 15-16 inch offerings at Dallas. Houston and Galveston prices gained 15 points during the five days.

Last year at this time, cotton brought 33.95 cents per pound at Dallas and 33.85 cents at Houston and Galveston. This was about \$6.75 to \$7.25 per bale higher than last Friday's close.

## Woods Are Hosts for Singing Last Friday

Mr. and Mrs. J. D. Woods were hosts to a group of friends in their home last Friday evening, when singing provided entertainment.

Those present were Mr. and Mrs. L. E. Best and children, Linda and Carol, Eld. and Mrs. W. E. Nunn and children, Gayle, Jimmy and Darrell, Mr. and Mrs. Ross Slaughter; Mr. and Mrs. Charlie Shipman, J. H. Slaughter, Mrs. Rose Embrey, and daughter, Viola, Will Andrews, Mr. and Mrs. B. B. King and son, Donald Ray, Thomas Johnson, J. W. Carter and Juanes Branscum.

## Farmers Are Urged to Use Labor Commission

Texas farmers, in planning their labor needs for the year, are urged to make use of the Texas Unemployment Commission, Glenn McNatt, office manager of the Abilene branch, said this week.

"The old hit or miss method, which usually resulted in a lot of lost motion by the former having to take time off to hunt and hire workers, has been supplanted by the modern method," McNatt said.

Under the present system farmers and ranchers need only get in touch

with the commission office and will find the workers and send them to the employer, at no cost. The Abilene office is located at 1141 North Second Street.

## HASKELL MAYOR RESIGNS

W. Q. Casey, mayor of Haskell since April of last year, has submitted his resignation to the city council. Casey announced that he is resigning to accept an executive position with the First State Bank of Muleshoe. A special election has been called for May 3 to fill the vacancy.

## State Treasury Cash Over \$170 Million

An increase of more than \$7,000,000 in cash over the January 1 report, was shown in the March 1 statement issued by Jesse James, state treasurer.

Net balance in all funds as of January 1, 1949, was listed as \$163,077,327.26, as compared with \$170,612,739.72 for March 1, 1949. Disbursements for the period were \$66,064,098.61 and receipts were \$73,598,511.07.

Otto Edward, Prince von Bismark, was called the Iron Chancellor of Germany.

## 6,000 Are Expected At Baptist Meeting

Plans to house 6,000 visitors in Abilene have been made by civic and church leaders of the city, when the 59th annual state Training Union convention opens there March 31 for a three-day session.

General sessions of the convention will be held in the Rose Field House on Furdin-Simmons University campus, while departmental meetings will convene in the First Baptist, University Baptist, First Christian, First Presbyterian and St. Paul's Methodist churches.

The Baptist Training Union in Texas had its beginning in 1883.

"Just Before the Battle, Mother" was a popular song during the Civil war.

A chapel program was presented at McCauley by the speech class of Rotan last Monday.

School was held at McCauley last Saturday.

## 390,000 County Acres In Farm Crops in '49

Jones County farmers will cultivate 390,000 acres of farm crops this year, it was estimated this week by Bill Lemmberg, county agent.

Cotton and grain sorghums will cover approximately 2200,000 acres, and 60,000 acres will be in wheat, the agent said. The cotton and sor-

Architect's model for the proposed Southwestern Medical College branch of the University of Texas at Dallas is scanned by Margie Emerson and Evelyn Krause of the adjacent Parkland Hospital School of Nursing. The proposed Medical College Building is in the foreground. The \$7,000,000 Dallas City-County Hospital, for which bonds have been voted, is in the center and Miss Krause is pointing to the million dollar nurses' home, an adjunct to the Dallas hospital improvement. Southwestern Medical Foundation is offering the State \$1,300,000 in real estate and other property and endowment funds running into many millions as Dallas' bid for the location of the University of Texas Medical School Branch.

ghum crops will be in about equal amounts over the county.

The wheat acreage is concentrated largely around Hamlin, which area is the largest producer of the grain in the county.

Lemmberg said the moisture received early during the year gives promise of one of the best agricultural years in the past decades.

The distance between some people's ears is one block.

A woman's promise to be on time carries a lot of wait.

## Regular Visits To Doctor Will Detect Cancers

Cancer ranks second among the leading causes of death in this country. But the disease probably ranks first among ills feared by mankind.

This fear, much of it based on misinformation, is mainly responsible for many deaths from cancer which could have been prevented. Afraid to face the truth, and believing cancer incurable, some people foolishly stay away from doctors when prompt medical checkup at the first sign that something was wrong might have resulted in a cure and the saving of their lives.

Cancer often can be cured if it is diagnosed and treated in time. It is believed that of the estimated 170,000 who die of it annually, at least one-third, or 555,000, could be saved if their disease was detected in the early stages.

A cancer is a wild or disorderly growth of living cells in some part of the body which serves no useful purpose but which, on the contrary, destroys normal cells surrounding it and if unchecked eventually impairs vital functions of the body. In addition to the destruction in the area where the cancer starts, cancerous cells may break off from the original growth and be carried by the blood stream to other parts of the body where they lodge and start new cancers.

But it must be remembered that a cancer begins to grow only in one spot and when discovered in this early stage, usually it can be removed or destroyed and the person cured. It is when the cancer is allowed to grow to a more advanced stage that it is dangerous and difficult to cure.

In other words, those who go regularly to their doctors for physical examinations have less to fear from cancer than those who neglect periodic checkups. By regular visits to the doctor, there is a better chance of detecting a possible cancer in an early stage when the doctor can take measures to check it before it endangers life.

When cancer first attacks, there may be no pain. Often it is only when cancer grows larger that it causes physical suffering. So we

must watch out for symptoms that might mean cancer. These include:

1. A sore on any part of the body, especially about the tongue, mouth or lips, which doesn't seem to heal.
2. A lump, or hard spot on the body but particularly in the breast.
3. A sudden change in the color or size of a wart, mole or birthmark.

4. Bleeding or abnormal discharge from any natural body opening.

5. Persistent hoarseness or difficulty in swallowing, for any unexplained reason.

6. Loss of appetite and persistent attacks of indigestion.

None of these symptoms may be due to cancer, yet any one of them points to the fact that a medical checkup is in order. If it is not cancer, the person is reassured and relieved of worry. But if cancer is discovered, there is the satisfaction of knowing that it has been detected in an earlier stage when there is the best chance of cure with the proper medical treatment.

## Hopper Family Had Reunion Last Week

Members of the family of Mrs. Nora Hopper were together last week for the first time in several years, when they came here for a reunion.

Those who attended were: Johnny Hopper and Otis Hopper of Fort Worth, Mr. and Mrs. Paul Cain and son, of Sweetwater, Mrs. Merle Copeland, Mr. and Mrs. Lee Hopper and family and Mr. and Mrs. Kenneth Hopper, all of Hamlin.

## Easter Pageant Faces Crisis; Director Dies

Faced with a crisis that long had been dreaded by those in charge of its annual presentation, the famed Wichita Mountain Easter Sunrise Service, will go on this year for the first time without the guiding hand of the late Rev. Mark Wallock.

Rev. Wallock, the quiet little minister who conceived the gigantic pageant and brought it into existence, died only a few weeks ago as preparations were underway for the 1949 program.

More than 1,000 persons will take part in the production, which will be larger this year than ever before. The title for the 1949 version is "The Prince of Peace," and as always, it will depict the life, death and resurrection of Christ.

Not only will organ music be provided this year, with amplifiers to carry the melody, but also for the first time the gigantic choir will be heard in carols. The service will get underway at 12 midnight, April 16 when music will begin. The service proper will last from 4 a. m. until sunrise. Admission is free.

## SPORTSMEN TO MEET

Hunters and fishermen from all parts of Texas will hit the trail for Brownwood April 7 for the first Texas Sportsmen's competition. The meet will continue from April 7 to April 10, and contests in various types of fishing and hunting will be open for all ages of both men and women.

Montpelier is the capital of Vermont.

## Do You Suffer Distress From periodic FEMALE WEAKNESS

with its nervous  
highstrung  
feelings?

Do female functional periodic disturbances make you suffer cramps, headache, backache and weak, tired, nervous feelings — at such times? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! Taken regularly this great Pinkham's Compound helps build up resistance against such distress. It's what doctors call a uterine sedative. It has a grand soothing effect on one of woman's most important organs. Pinkham's Compound has helped thousands upon thousands of women who are troubled this way. Buy a bottle at any drugstore.

NOTE: Or you may prefer Lydia E. Pinkham's TABLETS with added iron. Easy to carry in your purse.

LYDIA E. PINKHAM'S

Do you tell  
time by Baby?

At his feeding times, yes. He sounds off on the dot when a meal's due. But the rest of your day, you're wise to depend on electric clocks.

With a baby in the house, it's surprising how much you depend on electric service—to prepare and refrigerate his food, heat water for his bath and laundry, wash his clothes, and so on.

Of course, you depend on electricity to help take the work out of your housework, too. Always ready, it lends a willing hand with heavy chores, provides comfort, ease and even entertainment. And best of all, you can depend on its economy—for what other item in your budget does so much for so little?

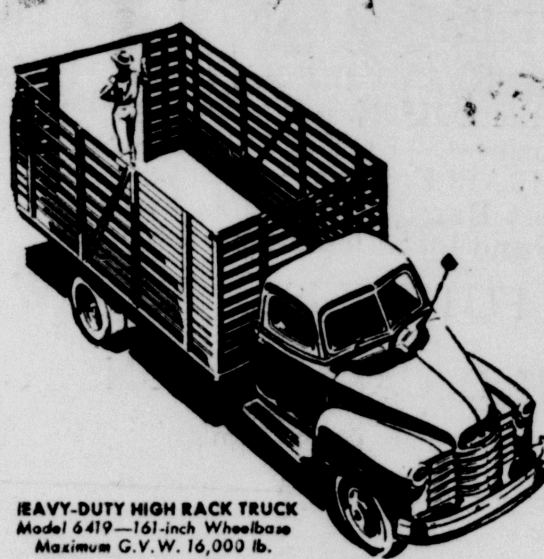

Your friends and neighbors in this company—under sound business management—are continually using their technical skill and practical experience to keep electricity the biggest bargain in that budget of yours. You can depend on that, too!
